DETAILED ACTION

Claims 52-61 are pending in this application.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 52 and 54-57, drawn to compounds of formula V wherein Z is a non-cyclic spacer and corresponding process of preparation, classified in class 544, subclass various.
- II. Claims 52 and 54-57, drawn to compounds of formula V wherein Z is a mono or poly carbocyclic spacer and corresponding process of preparation, classified in class 544, subclass various.
- III. Claims 52-57 drawn to compounds of formula V wherein Z is a mono or poly heterocyclic spacer and corresponding process of preparation, classified in class 544, subclass various.
- IV. Claims 52 and 54-61 drawn to compounds of formula V wherein Z is a combination of non-cyclic and mono- or poly carbocyclic (e.g., when Z is $-(CH_2)_n-$ X-Ar-, X and Ar contain carbocyclic groups only) and corresponding process of preparation, classified in class 544, subclass various.
- V. Claims 52 and 54-61 drawn to compounds of formula V wherein Z is a combination of non-cyclic and mono- or poly heterocyclic (e.g., when Z is -

Art Unit: 1624

$(\text{CH}_2)_n\text{-X-Ar-}$, X and Ar contain heterocyclic groups only) and corresponding process of preparation, classified in class 544, subclass various.

The inventions are distinct, each from the other because of the following reasons:

The compounds of Groups I-V are drawn to structurally dissimilar compounds. They are made independently and used independently. They would be expected to raise different issues of patentability if a compound of Group I were anticipated, the anticipatory reference would not necessarily render obvious the other groups II-V or vice-versa. They are not art recognized equivalents and require separate burdensome searches in literature and computer databases.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
